Stumajoseph1261@gmail.com

With two years of dedicated focus in web development, specializing in frontend technologies, I have honed my skills in crafting intuitive and visually appealing user interfaces. Leveraging my proficiency in HTML, CSS, and JavaScript, I have contributed to the creation of dynamic and responsive websites that prioritize user experience and accessibility.

Through collaboration with cross-functional teams, I have gained invaluable experience in translating design concepts into functional web solutions, adhering to best practices and industry standards. Continuously striving for excellence, I remain adaptable to emerging technologies and methodologies, ensuring that my contributions are at the forefront of innovation in the field of web development.

Professional Experience

1. Frontend Developer: Responsible for translating design mockups into responsive web interfaces using HTML, CSS, and JavaScript frameworks such as React or Angular. Collaborated closely with designers to ensure pixel-perfect implementation and optimal user experience across multiple devices and browsers.

2. UI/UX Developer: Played a key role in designing and developing user-friendly interfaces by conducting user research, creating wireframes, and prototyping interactions. Utilized frontend technologies to implement intuitive navigation flows and visually appealing designs that enhance user engagement and satisfaction.

3. Web Designer: Designed and developed custom websites for clients across various industries, incorporating modern design principles and accessibility standards. Utilized tools like Adobe Creative Suite or Figma to create mockups and prototypes, while also implementing frontend code to bring designs to life on the web.

4. Freelance Web Developer: Successfully completed freelance projects for clients ranging from small businesses to startups, delivering tailor-made web solutions that meet their specific

requirements and objectives. Managed project timelines, communicated effectively with clients, and provided ongoing support and maintenance post-launch.

Education

Barchelor of Science in Information Sciences *2021 August - Present*
Moi University Kenya

Web Design and Development 2022 January – 2022 June

W3schools

Responsive Web Design 2024 January – Present

FreeCodeCamp

Key Skills

- **Detail oriented - Competent**
- **Excellent written and oral communication skills - Competent**
- **Develops positive workplace relationships – Competent**
- **Proficient in HTML5, CSS3, and JavaScript**
- **Knowledge of responsive web design principles and techniques**
- **Ability to translate design mockups into functional web interfaces**
- **Understanding of version control systems like Git**
- **Knowledge of browser compatibility issues and solutions**
- **Strong problem-solving and debugging skills**
- **Awareness of web performance optimization techniques**
- **Familiarity with build tools like Webpack or Gulp**
- **Experience with cross-browser testing and debugging tools like Chrome DevTools**

Certifications

Responsive Web Design Certificate
